CHAPTER 2

GENERAL INFORMATION

Purpose of the College

East Central Junior College seeks to fulfill the educational needs of its students from the five-county district which it serves. In a continuing effort to meet these needs, the college, through its board of trustees, administration, and faculty, conceives its purpose to be to provide instruction and service. To achieve its instructional goals, the college is committed to offer opportunities for mental, physical, and emotional development. As a service agency, the college provides programs of instruction which incorporate knowledge and skills applicable to life in a complex society.

To successfully fulfill its purpose, East Central Junior College provides, at minimum cost, a variety of programs which include senior college or university parallel technical, vocational, adult, and remedial education. The college further subscribes to and provides for self-improvement, continuing education, and community services.

Through curricular and extracurricular activities, the college provides experiences which lead to the development of the total individual. These experiences include guidance, participation, and leadership in campus activities, student clubs, and organizations.

HISTORY OF THE COLLEGE

In 1928 Legislature of the State of Mississippi adopted the first basic laws for the organization and operation of the Mississippi public junior college. East Central Junior College opened its doors to a freshman class of twenty students for the first regular session in September of 1928. The college occupied buildings that were a part of the Newton County Agricultural High School, which had been organized in 1914. The Agricultural High School was located on property belonging to the Decatur Municipal School District, which had been created in 1912. The upper high school grades which comprised the Newton County Agricultural High School were a part of the college until 1958 when they joined the Decatur Attendance Center.

In March of 1939, East Central Junior College became a member of The Southern Association of Colleges and Secondary Schools. It now holds membership in The American Association of Junior Colleges, The Southern Association of Colleges and Schools, The Mississippi College Association, and The Mississippi Junior College Association.

In the beginning there was only one curriculum—Liberal Arts. A look at the progress of studies will show that the college now offers thirty-two programs of study, including vocational education, a one-year intensified business curriculum, and technical programs. These expanded course offerings are a far cry from the original Liberal Arts curriculum composed of English, History, Spanish, Chemistry, and Mathematics.

More than thirty different major buildings worth approximately \$6,000,000 have been added to the original three buildings. The latest additions include an air-conditioned library, women's dormitory, dining hall, and buildings designed specifically for science, vocational-technical courses, agriculture education, fine arts and physical education.

Originally this institution was supported by three counties—Newton, Neshoba and

Scott. Later these were joined by Leake and Winston. To supplement the original plant, Newton County provided \$90,000 in 1930. In 1933-37 \$110,000 was spent on the plant, and Newton County provided \$44,000 of this amount. Over five million dollars provided by the state and five supporting counties has been spent on the plant since 1946-47.

From the two members of the original faculty of East Central Junior College—Mrs. W. W. Newsome and Mr. Robert Marshall—the number of faculty members has increased to a present total of 64. Since its founding, five presidents have served the institution.

SCHOOL PLANT AND EQUIPMENT

Through the cooperative efforts of the district and the state legislature, the school has experienced a phenomenal growth in buildings and facilities during the past several years. The school plant consists of approximately 200 acres with buildings and facilities now valued at over six million dollars. There are seventeen main brick buildings.

In addition to facilities sufficient to sustain the general educational program, laboratories are provided for art, engineering drawing, audio visual education, applied music, dramatics, reading, languages, athletic and recreational activities, and scientific and vocational education.

BUILDINGS AND GROUNDS

ADMINISTRATION BUILDING

Occupied at the beginning of the 1978-79 school year, the administration building houses the offices of the president, academic dean, business manager, public relations director, and data processing operator and the Board of Trustees' room. Proper vault facilities for the business office and adequate storage for all offices are provided in the building. This facility was provided by renovating the 7,995 square-foot former library which had been outgrown. It was constructed in 1962. It is modern, spacious, and comfortable and is located on the front campus adjacent to the student services building.

BUFF AUDITORIUM AND STUDENT SERVICES BUILDING

This modern structure has a seating capacity of one thousand. The building has excellent acoustics and modern equipment and is conveniently located. The college holds its graduation, assemblies, and dramatic productions here. The air-conditioned student services offices are located on the ground floor.

BURTON LIBRARY

Occupied during the 1976-77 school year, this building is located near the center of the campus and contains a large reading area, a conference room, a spacious lobby, librarians' offices, a workroom, a faculty reading room, nine study rooms, and a room for special collections. Total seating capacity, mostly at individual and grouped carrels is 250, and shelving is provided for 50,000 volumes. Provision is also made for housing non-book materials. Closed circuit, public, or commercial television viewing is available in any area of the building. Other media include slides, filmstrips, audio tapes, film loops, and micro texts.

SULLIVAN CENTER

It is the college student center building and houses the vending machines, bookstore, and college post office. The second floor contains the offices of instructors, the Wesley Foundation, College Dispensary with an office for the college nurse, and an assembly room. This air-conditioned building was completely remodeled in 1963.

MARRY DINING HALL

Remodeled in 1979, it is a modern, air-conditioned building containing four dining rooms. The main dining room has a seating capacity of 300. Other dining rooms are the Wood Room, which seats 120; the Gordon Room, which seats 50; and the Magnolia Room, which seats 20.

THE STUDENT ACTIVITY CENTER

The office of the Director of Student Activities is located in this building along with many student special activity facilities.

CROSS HALL

It is a modern air-conditioned science building. The classrooms and laboratories for the biological, chemical, and physical sciences, as well as facilities for television instruction, are located here.

NEWSOME HALL

It was completed in 1957 and is the sophomore girls' dormitory. It is equipped with modern furniture and appliances and accommodates fifty to sixty women and the dormitory supervisor, who has an apartment and an office in the air-conditioned building.

JACKSON HALL

It is the freshman girls' dormitory. This building, which was remodeled in 1963 and again in 1978, houses 125 women and contains the office and apartment of the dormitory supervisor. It is completely air-conditioned.

NESHOBA COUNTY HALL

This is a new, two-story, air-conditioned dormitory for men. This building was constructed in 1971 and is modern in every way. It consists of thirty-one rooms and houses sixty-two students.

SCOTT COUNTY HALL

This is a new, two-story, air-conditioned dormitory for men. This building was constructed in 1972 and is modern in every way. It consists of thirty-one rooms and houses sixty-two students.

TODD HALL

This is a dormitory for men. It was completed in 1957 and is a modern, well-equipped building arranged in suites rather than having the conventional halls found in most men's dormitories. Seventy-two men are housed in this air conditioned dormitory.

WINSTON COUNTY HALL

This building is now being used for maintenance storage.

THE AGRICULTURAL TECHNOLOGY BUILDING

It was completed in 1969 and is located north of the vocational-technical building, adjacent to the college farm. This building includes classrooms and laboratories for vocational programs.

THE VOCATIONAL-TECHNICAL BUILDING

It contains over 58,000 square feet of floor space and was built at a cost of \$680,000. It was opened in 1969 and houses business education, drafting technology, and programs in machine shop, radio and television, welding, air-conditioning and refrigeration, electricity, automotive mechanics, and body and fender repair.

THE FINE ARTS BUILDING

Completed in 1969, it contains a 212 seat auditorium, a choral room, a band room, a music library, a listening room, classrooms for the teaching of music and art, and art studios.

PHYSICAL EDUCATION

This modern building was constructed in 1970 and is located near the football stadium. It contains facilities for the teaching of health and physical education, and varsity basketball. This building includes offices for the Physical Education personnel and coaches and dressing rooms for young men and young ladies.

NEWTON HALL

This is a new, two story, air-conditioned classroom building which was constructed in 1978. It houses the Home Economics, English, Mathematics, Social Science, History, Journalism, Education, and Psychology departments. Also, thirteen faculty offices are located in this building along with several supporting facilities.

OTHER BUILDINGS

THE PRESIDENT'S HOME

This is located on the main street of the Town of Decatur at the Southeast corner of the campus. This spacious modern home was constructed in 1961.

LEARN HALL

It was originally constructed for married students. Today it is occupied by both faculty and married students. It is a two-story building containing sixteen apartments.

FACULTY HOUSES

There are located at various sites on the college property. There are eleven of these houses.

ATHLETIC FIELDS

THE FOOTBALL STADIUM

It was relocated in 1967 and is now equipped with the most modern high intensity lighting and an enlarged seating capacity.

INTRAMURAL FIELD

It is located north of the baseball field. This playing field contains an area for intramural sports.

THE BASEBALL FIELD

It is situated near the football stadium and is well located, being adjacent to ample parking facilities and the Physical Education Building.

TENNIS FIELD

It is located north of Newsome Hall. This playing field contains four modern tennis courts.

MORAL AND RELIGIOUS INFLUENCE

East Central Junior College intends to develop Christian character. Its faculty is selected with that purpose in mind. Its administration and regulation proposes that every agency of the institution—teaching, playing, and social activities—will aid in this purpose.

There are in Decatur two churches, Baptist and Methodist, both very near the campus. These churches are well organized to serve the religious development of students. Catholic, Presbyterian, Episcopal, Christian, Methodist, Protestant and Church of Christ churches at Newton and Union, each only ten miles from Decatur, serve students of those faiths.

Under the auspices of these student Christian organizations, the students have an opportunity to cultivate definite moral and religious standards. During the year, outstanding religious speakers are brought to the college.

STUDENT ORGANIZATIONS AND ACTIVITIES

Student organizations are considered an essential part of the work of the institution, and every student is urged to participate in some extra-curricular activities. Such activities are distinctly educative and provide an opportunity for social participation. These organizations include:

Student Body Association
Home Society—Phi Theta Kappa

Publications—TOM-TOM (newspaper), WO-HE-LO (annual)

Religious Organizations—Baptist Student Union, Wesley Foundation, West-minister Fellowship, Newman Club and Church of God organization.

Special Interest Organizations—Athletics, Band, Choir, Intramural Sports, E.C.J.C. Players, Delta Psi Omega, Chess Club, French Club, and Fashion Squad.

Curricular Clubs—Agriculture Club, Engineering Club, Future Business Leaders of America, Student Education Association, Home Economics Club, Medical Service Club, Music Club and Vica.

For detailed information about each organization listed above see the Student Handbook.

Open November 24, 1980

SECOND SEMESTER

Open entrance
Start February 16, 1981
Open April 8, 1981

These dates are for convenience only.

Students see "K" under General Information.

Each student is required to have a health certificate form on file with the college. This completed form is a part of the admission requirement of the college.

COUNSELING AND GUIDANCE

East Central Junior College is wholly committed to providing the service of professionally trained guidance personnel to all of its students. The purpose of the guidance work is to provide professional assistance to the students in deciding academic, vocational, and personal questions, especially as they involve their college life.

The Dean of Students has overall supervision and coordination of guidance, counseling, extra-curricular activities, religious development, and alumni affairs. In addition, two full-time academic counselors and full-time vocational counselor are employed in the guidance department. Also, faculty members serve as academic advisors in their particular areas. Academic advisors are selected by the students from the teaching faculty according to curricula and are well qualified to assist the students in their academic career planning. Each student upon entering selects a course of study with the aid of one or more of the counseling personnel. Frequent meetings are held and the students are urged to keep constantly in touch with their Academic Advisor on matters pertaining to their educational or vocational careers. By careful planning, the students can find and pursue the course of study that will be most helpful in their chosen profession. Each student is thus aided in choosing a vocation for which the student is best suited.

Personal problems should be referred to the Dean of Students or one of the professionally qualified guidance persons working under the Dean of Students supervision.

FIREARMS ON CAMPUS

In keeping with the laws of Mississippi, students are not permitted to have rifles, shotguns, or other forms of weapons on campus.

STUDENT IDENTIFICATION CARD

Each full-time student will be issued an identification card during registration at a cost of \$3.00. The card will be used as activity card during regular school sessions. Failure to show or surrender identification card when requested by any East Central Junior College official will result in disciplinary action. Replacement of card due to loss will cost \$3.00.

DISMISSAL DUE TO UNSATISFACTORY CONDUCT

Upon enrollment each student is given a Student Handbook in which rules of conduct and major violations are listed in detail. Students disobeying the school conduct regulations are presented to the faculty discipline committee for action. Each violation is dealt with in the best interest of the students and school.

NON-CREDIT COURSES

Non-credit courses in the field of Adult Education are offered in the vocational programs and other special interest areas when sufficient numbers warrant the offerings.

EXTENSION CENTER

Classes may be organized in courses given credit beyond junior college credit. The college has served as an Extension Center for Mississippi State University.

CHAPTER 5

PROGRAMS OF STUDY

Suggested programs of study in many fields of interest have been established with recommended courses for each semester.

UNIVERSITY PARALLEL PROGRAMS

The East Central Junior College transfer programs are designed for the student who wishes to complete two years of college work and continue toward a Baccalaureate degree at a senior college. These suggested programs of study have been set up with extreme care.

BASIC COLLEGE CORE CURRICULUM

This core curriculum is designed for students who later plan to transfer with junior standing to one of the four-year colleges in Mississippi. Students should understand that different colleges and universities have their own requirements, and students should consult the latest catalog of the institution in which they are interested.

The following block of courses meets most lower division requirements and is incorporated in the suggested programs of study as outlined in this chapter.

English Composition	6 semester hours
Literature	6 semester hours
Natural Science (6 hours must be in history)	12 semester hours
Science	6 semester hours
Mathematics 3-6 hours	
Fine Arts 0-3	6 semester hours
	<u>36 semester hours</u>

The following courses of study are exceptions to this core curriculum:
Pre-engineering (the mathematics must be higher than algebra and trigonometry)

Pre-pharmacy (the student should follow pre-pharmacy as outlined in the catalog)
Music (requires only six hours of history)
Elementary Education
Agriculture

Unless student has special approval, both semesters of history should be either World or American.

AGRICULTURE

CURRICULUM ONE:

DR. B. J. TUCKER, Advisor

The combination of courses in this curriculum is offered for students who are planning to be professional agriculture workers. All students expecting to complete a four-year Agricultural Course in a senior college should select Curriculum One.

COMMERCE AND BUSINESS EDUCATION

Students in this group should be elected by those students who wish (1) to become office workers, (2) to gain valuable knowledge, or (3) to continue their education in schools of commerce and business administration.

The Education Department has turned out many people who have secured holding good office positions.

One reason why young people contemplating entering business should get their education in a regular academic college where the individual has the courses in English, Mathematics, and Economics. The efficient secretary must have a well-rounded education as well as a through knowledge of his field of specialization.

EDUCATION

An education curriculum should be selected by those who are planning to teach. East Central Junior College offers the fundamental courses required in the present certification requirements of the State Department of Education. Every student who plans to teach should become familiar with Bulletin No. 130 of the State Department of Education, REGULATIONS FOR TEACHER CERTIFICATION. The requirements include courses in General Education, Professional Education, and Specialized Education. It is suggested that those registering in one of the curriculums meet most of the requirements in General Education during attendance at East Central Junior College. Those who plan to teach in high school should decide on their teaching field and take one or more courses in the field each semester. For example, those wanting to teach mathematics or science should take as many courses as practical now of the courses offered in those departments. Students who plan to teach agriculture or home economics should register in Curriculum One or Nine. Those planning to teach languages or music should consult the advisor of those curriculums and the dean for advice in their course.

INDUSTRIAL EDUCATION

CURRICULUM SEVEN

MR. HANSFORD, Advisor

MR. CHESTER CLARK, Advisor

The course of study in Industrial Education is for the purpose of preparing students to become teachers or coordinators in the field of Industrial Arts, Trade and Industrial Education, or diversified occupations. The first two years of training in any of the above mentioned professions are the same. Any person completing this course may transfer to a four-year school in the Industrial Education Department with little or no loss of credit.

Those who desire to go into the four-year Industrial Technology program will leave after two semesters of physical science, two semesters of literature, two semesters of American History, and Educational Psychology. In place these will take two semesters of General Physics, two semesters of General Inorganic Chemistry, Trigonometry, Analytic Geometry, and Business English.

It is recommended that electives be selected from the General Education requirements set up by the State Department of Education. Other electives may be selected from fields of special interest.

PROFESSIONAL EDUCATION

Courses available at East Central Junior College to meet the Professional Education requirements are:

EPY 2513 Child Psychology
EPY 2523 Adolescent Psychology
EUD 1613 Introduction to Education

SPECIALIZED EDUCATION

Most courses at East Central Junior College can be applied to the requirements in several major fields of high school teaching such as English, Science, Mathematics, Social Science, Physical Education, Agriculture, Music, and Industrial Education.

Liberal Arts Curriculum will meet the pre-professional needs of many students who are planning some professional vocation. It may be selected by the pre-law student, the pre-ministerial student, or by those planning a career in journalism, or by others. In addition to the above, students who come to college to receive a general and liberalizing value of education, who are planning to continue in the curriculum in a four-year college, or whose interests cannot be met by the curriculum usually select this curriculum. Electives should be chosen from the list of electives with the approval of the individual's advisor.

TERMINAL TECHNICAL PROGRAMS

The East Central Junior College non-transfer programs are designed for the student who wishes to extend his or her education by completing one of the two year programs of the Intensive Business Program. An Associate in applied science degree will be awarded those students who satisfactorily complete the two year programs recommended by the Advisory Committee for a given curriculum. Certificates will be awarded those students who satisfactorily complete the Intensive Business Program as recommended by the Department of Labor in a report on technicians who work in the field.

The United States Department of Labor in a report on technicians who work in the field of occupations at many levels of skill and with a wide variety of training requirements. In general, technician jobs fall between those of the skilled draftsman and the professional engineer or scientist. The work is technical in nature and narrower in scope than that of the engineer or scientist, and has a practical rather than a theoretical orientation. Frequently, technician jobs require use of complex electronic instruments, experimental laboratory apparatus, drafting and mechanical instruments, tools, and machinery. Almost all technicians must be able to use engineering handbooks and computing devices, such as the slide rule and calculating machines.

Technicians are utilized in virtually every activity where know-how is required. Their largest and best known areas of employment are research, development, and design work.

CHAPTER 2

GENERAL INFORMATION

Purpose of the College

East Central Junior College seeks to fulfill the educational needs of its students from the five-county district which it serves. In a continuing effort to meet these needs, the college, through its board of trustees, administration, and faculty, conceives its purpose to be to provide instruction and service. To achieve its instructional goals, the college is committed to offer opportunities for mental, physical, and emotional development. As a service agency, the college provides programs of instruction which incorporate knowledge and skills applicable to life in a complex society.

To successfully fulfill its purpose, East Central Junior College provides, at minimum cost, a variety of programs which include senior college or university parallel, technical, vocational, adult, and remedial education. The college further subscribes to and provides for self-improvement, continuing education, and community services.

Through curricular and extracurricular activities, the college provides experiences which lead to the development of the total individual. These experiences include guidance, participation, and leadership in campus activities, student clubs, and organizations.

HISTORY OF THE COLLEGE

In 1928 Legislature of the State of Mississippi adopted the first basic laws for the organization and operation of the Mississippi public junior college. East Central Junior College opened its doors to a freshman class of twenty students for the first regular session in September of 1928. The college occupied buildings that were a part of the Newton County Agricultural High School, which had been organized in 1914. The Agricultural High School was located on property belonging to the Decatur Municipal School District, which had been created in 1912. The upper high school grades which comprised the Newton County Agricultural High School were a part of the college until 1958 when they joined the Decatur Attendance Center.

In March of 1939, East Central Junior College became a member of The Southern Association of Colleges and Secondary Schools. It now holds membership in The American Association of Junior Colleges, The Southern Association of Colleges and Schools, The Mississippi College Association, and The Mississippi Junior College Association.

In the beginning there was only one curriculum—Liberal Arts. A look at the program of studies will show that the college now offers thirty-two programs of study, including vocational education, a one-year intensified business curriculum, and technical programs. These expanded course offerings are a far cry from the original Liberal Arts curriculum composed of English, History, Spanish, Chemistry, and Mathematics.

More than thirty different major buildings worth approximately \$6,000,000 have been added to the original three buildings. The latest additions include an air-conditioned library, women's dormitory, dining hall, and buildings designed specifically for science, vocational-technical courses, agriculture education, fine arts and physical education.

Originally this institution was supported by three counties—Newton, Neshoba and Scott. Later there were joined by Leake and Winston. To supplement the original plant, Newton County provided \$90,000 in 1930. In 1933-37 \$110,000 was spent on the plant, and Newton County provided \$44,000 of this amount. Over five million dollars provided by the State and five supporting counties has been spent on the plant since 1946-47.

From the two members of the original faculty of East Central Junior College—Mrs. W. W. Newsome and Mr. Robert Marshall—the number of faculty members has increased to a present total of 64. Since its founding, five presidents have served the institution.

ATHLETIC FIELDS**THE FOOTBALL STADIUM**

It was relocated in 1967 and is now equipped with the most modern high intensity lighting and an enlarged seating capacity.

INTRAMURAL FIELD

It is located north of the baseball field. This playing field contains an area for intramural sports.

THE BASEBALL FIELD

It is situated near the football stadium and is well located, being adjacent to ample parking facilities and the Physical Education Building.

TENNIS FIELD

It is located north of Newsome Hall. This playing field contains four modern tennis courts.

MORAL AND RELIGIOUS INFLUENCE

East Central Junior College intends to develop Christian character. Its faculty is selected with that purpose in mind. Its administration and regulation proposes that every agency of the institution—teaching, playing, and social activities—will aid in this purpose.

There are in Decatur two churches, Baptist and Methodist, both very near the campus. These churches are well organized to serve the religious development of students. Catholic, Presbyterian, Episcopal, Christian, Methodist, Protestant and Church of Christ churches at Newton and Union, each only ten miles from Decatur, serve students of those faiths.

Under the auspices of these student Christian organizations, the students have an opportunity to cultivate definite moral and religious standards. During the year, outstanding religious speakers are brought to the college.

STUDENT ORGANIZATIONS AND ACTIVITIES

Student organizations include:

Student Body Association

Honor Society—Phi Theta Kappa

Publications—TOM-TOM (newspaper), WO-HE-LO (annual)

Religious Organizations—Baptist Student Union, Wesley Foundation, West-minister Fellowship, Newman Club and Church of God organization.

Special Interest Organizations—Athletics, Band, Choir, Intramural Sports, E.C.J.C. Players, Delta Psi Omega, Chess Club, French Club, and Fashion Squad.

Curricular Clubs—Agriculture Club, Engineering Club, Future Business Leaders of America, Student Education Association, Home Economics Club, Medical Service Club, Music Club and Vica.

For detailed information about each organization listed above see the Student Handbook.

CHAPTER 2

GENERAL INFORMATION**Purpose of the College**

East Central Junior College seeks to fulfill the educational needs of its students from the five-county district which it serves. In a continuing effort to meet these needs, the college, through its board of trustees, administration, and faculty, conceives its purpose to be to provide instruction and service. To achieve its instructional goals, the college is committed to offer opportunities for mental, physical, and emotional development. As a service agency, the college provides programs of instruction which incorporate knowledge and skills applicable to life in a complex society.

To successfully fulfill its purpose, East Central Junior College provides, at minimum cost, a variety of programs which include senior college or university parallel, technical, vocational, adult, and remedial education. The college further subscribes to and provides for self-improvement, continuing education, and community services.

Through curricular and extracurricular activities, the college provides experiences which lead to the development of the total individual. These experiences include guidance, participation, and leadership in campus activities, student clubs, and organizations.

HISTORY OF THE COLLEGE

In 1928 Legislature of the State of Mississippi adopted the first basic laws for the organization and operation of the Mississippi public junior college. East Central Junior College opened its doors to a freshman class of twenty students for the first regular session in September of 1928. The college occupied buildings that were a part of the Newton County Agricultural High School, which had been organized in 1914. The Agricultural High School was located on property belonging to the Decatur Municipal School District, which had been created in 1912. The upper high school grades which comprised the Newton County Agricultural High School were a part of the college until 1958 when they joined the Decatur Attendance Center.

In March of 1939, East Central Junior College became a member of The Southern Association of Colleges and Secondary Schools. It now holds membership in The American Association of Junior Colleges, The Southern Association of Colleges and Schools, The Mississippi College Association, and The Mississippi Junior College Association.

In the beginning there was only one curriculum — Liberal Arts. A look at the program of studies will show that the college now offers thirty-two programs of study, including vocational education, a one-year intensified business curriculum, and technical programs. These expanded course offerings are a far cry from the original Liberal Arts curriculum composed of English, History, Spanish, Chemistry, and Mathematics.

More than thirty different major buildings worth approximately \$6,000,000 have been added to the original three buildings. The latest additions include an air-conditioned library, women's dormitory, dining hall, and build-

ings designed specifically for science, vocational-technical courses, agriculture education, fine arts and physical education.

Originally this institution was supported by three counties — Newton, Neshoba and Scott. Later they were joined by Leake and Winston. To supplement the original plant, Newton County provided \$90,000 in 1930. In 1933-37 \$110,000 was spent on the plant, and Newton County provided \$44,000 of this amount. Over five million dollars provided by the State and five supporting counties has been spent on the plant since 1946-47.

From the two members of the original faculty of East Central Junior College — Mrs. W. W. Newsome and Mr. Robert Marshall — the number of faculty members has increased to a present total of 59. Since its founding, five presidents have served the institution.

SCHOOL PLANT AND EQUIPMENT

Through the cooperative efforts of the district and the state legislature, the school has experienced a phenomenal growth in buildings and facilities during the past several years. The school plant consists of approximately 200 acres with buildings and facilities now valued at over six million dollars. There are seventeen main brick buildings.

In addition to facilities sufficient to sustain the general education program laboratories are provided for art, engineering drawing, audio visual education, applied music, dramatics, reading, languages, athletic and recreation activities, and scientific and vocational education.

BUILDINGS AND GROUNDS ADMINISTRATION BUILDING

Occupied at the beginning of the 1978-79 school year, the administration building houses the offices of the president, academic dean, business manager, public relations director, and data processing operator and the Board of Trustees' room. Proper vault facilities for the business office and adequate storage for all offices are provided in the building. This facility was provided by renovating the 7,995 square-foot former library which had been outgrown. It was constructed in 1962. It is modern, spacious, and comfortable and is located on the front campus adjacent to the student services building.

HUFF AUDITORIUM AND STUDENT SERVICES BUILDING

This modern structure has a seating capacity of one thousand. The building has excellent acoustics and modern equipment and is conveniently located. The college holds its graduation, assemblies, and dramatic productions here. The air-conditioned student services offices are located on the ground floor.

HURTON LIBRARY

Occupied during the 1976-77 school year, this building is located near the center of the campus and contains a large reading area, a conference room, a spacious lobby, librarians' offices, a workroom, a faculty reading room, nine study rooms, and a room for special collections. Total seating capacity, mostly at individual and grouped carrels is 250; and shelving is provided for 50,000 volumes. Provision is also made for housing non-book materials. Closed circuit, public, or commercial television viewing is available in any area of the building. Other media include slides, filmstrips, audio tapes, film loops, and micro texts.

ATHLETIC FIELDS

THE FOOTBALL STADIUM

It was relocated in 1967 and is now equipped with the most modern high intensity lighting and an enlarged seating capacity.

INTRAMURAL FIELD

It is located north of the baseball field. This playing field contains an area for intramural sports.

THE BASEBALL FIELD

It is situated near the football stadium and is well located, being adjacent to ample parking facilities and the Physical Education Building.

TENNIS FIELD

It is located north of Newsome Hall. This playing field contains four modern tennis courts.

MORAL AND RELIGIOUS INFLUENCE

East Central Junior College intends to develop Christian character. Its faculty is selected with that purpose in mind. Its administration and regulation proposes that every agency of the institution — teaching, playing, and social activities — will aid in this purpose.

There are in Decatur five churches. All are near the campus. These churches are well organized to serve the religious development of students. Catholic, Presbyterian, Episcopal, Christian, Methodist, Protestant and Church of Christ churches at Newton and Union, each only ten miles from Decatur, serve students of those faiths.

Under the auspices of these student Christian organizations, the students have an opportunity to cultivate definite moral and religious standards. During the year, outstanding religious speakers are brought to the college.

STUDENT ORGANIZATIONS AND ACTIVITIES

Student organizations include:

Student Body Association

Honor Society — Phi Theta Kappa

Publications — TOM-TOM (newspaper), WO-HE-LO (annual)

Religious Organizations — Baptist Student Union, Wesley Foundation, West-minister Fellowship, Newman Club and Church of God organization.

Special Interest Organizations — Athletics, Band, Choir, Intramural Sports, E.C.J.C. Players, Delta Psi Omega, Chess Club, French Club, and Fashion Squad.

Curricular Clubs — Agriculture Club, Engineering Club, Future Business Leaders of America, Student Education Association, Home Economics Club, Medical Service Club, Music Club and Vica.

For detailed information about each organization listed above see the Student Handbook.

CHAPTER 5

PROGRAMS OF STUDY

Suggested programs of study in many fields of interest have been established with recommended courses for each semester.

UNIVERSITY PARALLEL
PROGRAMS

The East Central Junior College transfer programs are designed for the student who wishes to complete two years of college work and continue toward a Baccalaureate degree at a senior college. These suggested programs of study have been set up with extreme care.

BASIC COLLEGE CORE CURRICULUM

This core curriculum is designed for students who later plan to transfer with junior standing to one of the four-year colleges in Mississippi. Students should understand that different colleges and universities have their own requirements, and students should consult the latest catalog of the institution in which they are interested.

The following block of courses meets most lower division requirements and is incorporated in the suggested programs of study as outlined in this chapter.

English Composition	6 semester hours
Literature	6 semester hours
Social Science (6 hours must be in history)	12 semester hours
Science	6 semester hours
Mathematics 3-6 hours	
Fine Arts 0-3	6 semester hours
	36 semester hours

The following courses of study are exceptions to this core curriculum:

Pre-engineering (the mathematics must be higher than algebra and trigonometry)

Pre-pharmacy (the student should follow pre-pharmacy as outlined in the catalog)

Music (requires only six hours of history)
Elementary Education
Agriculture

Unless student has special approval, both semesters of history should be either World or American.

Agriculture

CURRICULUM ONE:

Dr. B. J. Tucker, Advisor

The combination of courses in this curriculum is offered for students who are planning to be professional agriculture workers. All students expecting to complete a four-year Agricultural Course in a senior college should select Curriculum One.

Business

The courses in this group should be elected by those students who wish (1) to become well-trained office workers, (2) to gain valuable knowledge, or (3) to continue their education in schools of business education and business administration.

The Business Department has turned out many people who have secured and are now holding good office positions.

There is every reason why young people contemplating entering business should get their foundation courses in a regular academic college where the individual has the advantage of courses in English, Mathematics, and Economics. The efficient secretary or stenographer must have a well-rounded education as well as a through knowledge of the individual's field of specialization.

BUSINESS EDUCATION CURRICULUM THREE

Mrs. Pitts, Advisor; Mrs. Everett, Advisor; Mrs. Wright, Advisor

This program may be followed by those who plan to teach in the business field. It includes some of the general education courses required of all teachers and a sufficient number of business courses to allow proficiency in the field for those who may wish to work prior to the completion of the four-year program. Students planning to be business teachers may choose to take fewer business courses here than are listed below and may enroll in Curriculum Five — Education instead of this curriculum.

This curriculum is designed for students who plan to transfer with junior standing to a four-year institution. Changes may be made in order to meet the requirements of the college to which the student will transfer.

Education

An education curriculum should be selected by those who are planning to teach. East Central Junior College offers the fundamental courses required in the present certification requirements of the State Department of Education. Every student who plans to teach should become familiar with Bulletin No. 130 of the State Department of Education, REGULATIONS FOR TEACHER CERTIFICATION. The requirements include courses in General Education, Professional Education, and Specialized Education. It is suggested that those registering in one of the curriculums meet most of the requirements in General Education during attendance at East Central Junior College. Those who plan to teach in high school should decide on their teaching field and take one or more courses in the field each semester. For example, those wanting to teach mathematics or science should take as many courses as practical now of the courses offered in those departments. Students who plan to teach agriculture or home economics, should register in Curriculum One or Nine. Those planning to teach business or music should consult the advisor of those curriculums and the dean for advice in their course.

INDUSTRIAL EDUCATION CURRICULUM SEVEN

Mr. Hansford, Advisor; Mr. Chester Clark, Advisor

The course of study in Industrial Education is for the purpose of preparing students to be teachers or coordinators in the field of Industrial Arts, Trade and Industrial Education, or diversified occupations. The first two years of training in any of the above mentioned professions are the same. Any person completing this course may transfer to a four-year school in the Industrial Education Department with little or no loss of credit.

Those who desire to go into the four-year Industrial Technology program will leave off two semesters of physical science, two semesters of literature, two semesters of American History, and Educational Psychology. In place these will take two semesters of General Physics, two semesters of General Inorganic Chemistry, Trigonometry, Analytic Geometry, and Business English.

STATE CERTIFICATION

It is recommended that electives be selected from the General Education requirements set up by the State Department of Education. Other electives may be selected from fields of special interest.

PROFESSIONAL EDUCATION

Courses available at East Central Junior College to meet the Professional Education requirements are:

EPY	2513	Child Psychology
EPY	2523	Adolescent Psychology
EDU	1613	Foundations of Education
EDU	2543	Educational Psychology

SPECIALIZED EDUCATION

Most courses at East Central Junior College can be applied to the requirements in the several major fields of high school teaching such as Science, Mathematics, Social Science, Physical Education, Agricultural and Industrial Education.

Engineering

PRE-ENGINEERING
CURRICULUM EIGHT

Dr. Harris, Advisor; Mr. Smith, Advisor; Mrs. McMullan, Advisor

Students who are interested in any engineering field should register in this curriculum. The first two years of engineering are basically the same for all branches of engineering, and this curriculum is designed to meet these needs.

Mr. Mayes, English Advisor;
Mr. Mason, Science Advisor; Dr. Fisher, Science Advisor;
Mr. Deaton, Science Advisor; Mrs. Heard, Science Advisor;
Mr. Peterson, Speech Advisor

Liberal Arts Curriculum will meet the pre-professional needs of many students who are planning some professional vocation. It may be selected by the pre-law students, by pre-ministerial students, or by those planning a career in journalism, or social work, and by others. In addition to the above, students who come to college to secure the general and liberalizing value of education, who are planning to continue a similar curriculum in a four-year college, or whose interests cannot be met by another curriculum usually select this curriculum. Electives should be chosen from a student's field of interest with the approval of the individual's advisor.

Music

Mrs. Thornton, Advisor

The work of the music department is organized (1) to give sound foundation work in music theory, (2) to develop understanding and appreciation of the literature and history of music, and (3) to develop techniques with the voice and music instruments.

The following suggested programs of study lead to the degree of Bachelor of Music Education. This is the degree that should be sought by most people majoring in music.

COLLEGE LEVEL
TECHNICAL PROGRAMS

The East Central Junior College non-transfer programs are designed for students who wish to extend his or her education by completing one of the programs of the Intensive Business Program. An Associate in applied science will be awarded those students who satisfactorily complete the programs recommended by the Advisory Committee for a given curriculum. Certificates will be awarded those students who satisfactorily complete the Intensive Business Program.

The United States Department of Labor in a report on technicians who engineers and physical scientists use the term "technician" to designate a loosely defined group of occupations at many levels of skill and variety of training requirements. In general, technician jobs fall between the skilled drafters and the professional engineer or scientist. The technician is technical in nature, but narrower in scope than that of the engineer and has a practical rather than a theoretical orientation. Frequent technician jobs require use of complex electronic and mechanical instrumental laboratory apparatus, drafting instruments, tools, and equipment. Almost all technicians must be able to use engineering handbooks and devices such as the slide rule and calculating machines.

Technicians are utilized in virtually every activity where know-how is required. The largest and best known areas of employment are research, development, and design work.

VOCATIONAL PROGRAMS

The following East Central Junior College Vocational Programs are designed to prepare the student to learn a trade. A certificate is issued upon satisfactory completion of one of the programs. Many job opportunities are available to those who complete one of the programs. These programs are scheduled to meet six hours a day, five days a week, unless otherwise specified in the course description. Classroom activities in each vocation and related fields as well as laboratory experiences are given each student. A vocational learning lab is provided to give additional training to students in each trade area. See page 87 for Cosmetology daily schedule, which includes seven hours a day, five days a week.

COSMETOLOGY
CURRICULUM TWENTY-FOUR

Mrs. Keen, Advisor

Voc. 1500-12 months Certificate Program
Regular Session and Summer Session

There are numerous opportunities for licensed cosmetologists in working for beauty shop owners or in installing their own shops and working for themselves. This course, which is designed for cosmetologists and hair dressers, has been approved by the Mississippi State Board of Cosmetology, by the State Department of Education, Vocational Division, and by the Mississippi Junior College Commission. Instruction is in classroom theory, skill training in the laboratory, and special assignments by the instructor. A student may enroll at the beginning of the Fall, Spring, or Summer if an opening is available.

AUTO MECHANICS
CURRICULUM TWENTY-FIVE

Mr. Hill, Advisor

Voc. 130-230-330-12 month Certificate
Regular Session and Summer Session

Persons who are interested in auto mechanics as a trade should enroll in this course. Anyone of sufficient maturity may enter this course regardless of previous education and experience.

BODY AND FENDER
CURRICULUM TWENTY-SIX

Mr. Shoemaker, Advisor

Voc. 140-240-340-12 month Certificate
Regular Session and Summer Session

This course includes classroom and shop experiences which are designed to prepare the student for job dealing with the repair of automobile bodies. It is offered for those who wish to pursue this special trade in the field of auto mechanics.

**ELECTRICITY
CURRICULUM TWENTY-SEVEN**

Mr. Vaughn, Advisor

Voc. 170-270-370-12 month Certificate
Regular Session and Summer Session

This course is offered to those who wish to prepare for a career as an electrician or electric motor repairperson, or for self-employment in the electrical field.

CURRICULUM TWENTY-EIGHT**

Mr. Whitehead, Advisor

Voc. 180-280-380-480-18 month Certificate
Two Regular Sessions

This course is offered to those who wish to prepare for a career in the refrigeration and air-conditioning field. Many opportunities are becoming available each year for persons trained in this area.

**MACHINE SHOP
CURRICULUM TWENTY-NINE**

Mr. Clark, Advisor

Voc. 150-250-350-450-18 month certificate
Two Regular Sessions

This course is designed to prepare students for the beginning level of employment as machinists. Because of the increase of metal-working factories in Mississippi, there is a growing need for machine operators and machinists in the state.

**RADIO AND TELEVISION REPAIR
CURRICULUM THIRTY**

Mr. Hollingsworth, Advisor

Voc. 160-260-360-460-18 month Certificate
Two Regular Sessions

There are unlimited opportunities as radio and TV repairpersons in communities. This course would enable students to enter the field through an established business or become self-employed.

**WELDING
CURRICULUM THIRTY-ONE**

Mr. Clay, Advisor

Voc. 190-290-390-12 month Certificate
Regular Session and Summer Session

This course is designed to enable the students to acquire the basic skill, the technical knowledge, and an acquaintance with the related information and job procedures for employment in the field of welding.

**CARPENTRY AND CABINET MAKING
CURRICULUM THIRTY-TWO**

Mr. Blackburn, Advisor

Voc. 110-210-310-410-18 month Certificate
Two Regular Sessions

This course is designed to equip the student with the information and skills necessary to enter the industry of carpentry and cabinet making. This can be accomplished by a programmed sequence of instruction and practical application, dealing with the reading of plans and prints, the use of hand tools and equipment, and the study of various building materials and their characteristics. Techniques of constructions will include all areas pertaining to the carpentry trade. The content of this course will be divided into classroom lecture and practical application in the laboratory.

**MASONRY TRADES
CURRICULUM THIRTY-THREE**

Mr. McElhenney, Advisor

Voc. 120-220-320-12 month Certificate
Regular Session and Summer Session

This program is designed to equip the student with the necessary skills and information to enter the field of masonry. The objectives of this course will be accomplished by a planned program to introduce the student to all phases of masonry work. The course content will be divided between classroom lectures and practical application in the laboratory.

CETA

East Central Junior College is currently operating one full-time CETA (Comprehensive Employment Training Act) program, Small Engine Repair, at Carthage. This program is operated under contract with the Mississippi Department of Education, Vocational Division. Each contract period is the responsibility of the Mississippi Employment Service. This CETA program is open-entry open-exit. Anyone desiring to enroll in this program should contact their local employment service office.

SMALL ENGINE REPAIR — A comprehensive six month study and repair of small engines. Included are two- and four-cycle engines used on lawn mowers, chain saws, motorcycles, outboard marine and others. The program meets six hours per day, five days per week.

This refund will be made by check automatically within thirty (30) days from time of student's withdrawal.

Any student withdrawing from college completely will be refunded any board payment due the student for the remainder of the board period at the

well qualified to assist the students in their academic career planning. Each student upon entering selects a course of study with the aid of one or more of the counseling personnel. Frequent meetings are held and the students are urged to keep constantly in touch with their Academic Advisor on matters pertaining to their educational or vocational careers. By careful planning, the students can find and pursue the course of study that will be most helpful in their chosen profession. Each student is thus aided in choosing a vocation for which the student is best suited.

Personal problems should be referred to the Dean of Students or one of the professionally qualified guidance persons working under the Dean of Student supervision.

FIREARMS ON CAMPUS

In keeping with the laws of Mississippi, students are not permitted to have rifles, shotguns, or other forms of weapons on campus.

STUDENT IDENTIFICATION CARD

Each full-time student will be issued an identification card during registration at a cost of \$3.00. The card will be used as activity card during regular school session. Failure to show or surrender identification card when requested by any East Central Junior College official will result in disciplinary action. Replacement of card due to loss will cost \$3.00.

DISMISSAL DUE TO UNSATISFACTORY CONDUCT

Upon enrollment each student is given a Student Handbook in which rules of conduct and major violations are listed in detail. Students disobeying school conduct regulations are presented to the faculty discipline committee for action. Each violation is dealt with in the best interest of the student and the school.

NON-CREDIT COURSES

Non-credit courses in the field of Adult Education are offered in the Extension Center programs and other special interest areas when sufficient number of students warrant class offerings.

EXTENSION CENTER

Classes may be organized in courses given credit beyond junior college credit. The college has served as an Extension Center for Mississippi State University and University of Southern Mississippi at various times in the past.

CHAPTER 5

PROGRAMS OF STUDY

Suggested programs of study in many fields of interest have been established with recommended courses for each semester.

UNIVERSITY PARALLEL PROGRAMS

The East Central Junior College transfer programs are designed for the student who wishes to complete two years of college work and continue toward a baccalaureate degree at a senior college. These suggested programs of study have been set up with extreme care.

BASIC COLLEGE CORE CURRICULUM

This core curriculum is designed for students who later plan to transfer to one of the four-year colleges in Mississippi. Students should understand that different colleges and universities have their own requirements, and students should consult the latest catalog of the institution in which they are interested.

The following block of courses meets most lower division requirements incorporated in the suggested programs of study as outlined in this catalog.

Composition I	6 semester hours
Composition II (must be in history)	6 semester hours
Mathematics I	12 semester hours
Mathematics II	6 semester hours
Science I	6 semester hours
Science II	36 semester hours

The following courses of study are exceptions to this core curriculum:

- Engineering (the mathematics must be higher than algebra and trigonometry)
- Pre-pharmacy (the student should follow pre-pharmacy as outlined in the catalog)
- Education (requires only six hours of history)
- Liberal Arts (must have special approval, both semesters of history should be completed)

Liberal Arts

CURRICULUM TEN

Dr. Ethridge, Social Science Advisor; Mr. Thrash, Social Science Advisor;
 Mr. Steve Rives, Social Science Advisor;
 Mr. Guraedy, Art Advisor; Dr. Harris, Mathematics Advisor;
 Mrs. Lois McMullan, Mathematics Advisor;
 Mr. Smith, Mathematics Advisor;
 Mr. Vickers, English Advisor; Mrs. Alford, English Advisor;
 Mr. Mayes, English Advisor;
 Mr. Mason, Science Advisor; Dr. Fisher, Science Advisor;
 Mr. Deaton, Science Advisor; Mrs. Heard, Science Advisor;
 Mr. Peterson, Speech Advisor

Liberal Arts Curriculum will meet the pre-professional needs of many students who are planning some professional vocation. It may be selected by the pre-law students, by pre-ministerial students, or by those planning a career in journalism, or social work, and by others. In addition to the above, students who come to college to secure the general and liberalizing value of education, who are planning to continue a similar curriculum in a four-year college, or whose interests cannot be met by another curriculum usually select this curriculum. Electives should be chosen from a student's field of interest with the approval of the individual's advisor.

Music

Mrs. Thornton, Advisor

The work of the music department is organized (1) to give sound foundation work in music theory, (2) to develop understanding and appreciation of the literature and history of music, and (3) to develop techniques with the voice and music instruments.

The following suggested programs of study lead to the degree of Bachelor of Music Education. This is the degree that should be sought by most people majoring in music.

COLLEGE LEVEL

TECHNICAL PROGRAMS

The East Central Junior College non-transfer programs are designed for the student who wishes to extend his or her education by completing one of the two year programs of the Intensive Business Program. An Associate in applied science degree will be awarded those students who satisfactorily complete the two year programs recommended by the Advisory Committee for a given curriculum. Certificates will be awarded those students who satisfactorily complete the Intensive Business Program.

The United States Department of Labor in a report on technicians who work with engineers and physical scientists use the term "technician" to describe a large and loosely defined group of occupations at many levels of skill and with wide variety of training requirements. In general, technician jobs fall between those of the skilled drafters and the professional engineer or scientist. The work is technical in nature, but narrower in scope than that of the engineer or scientist, and has a practical rather than a theoretical orientation. Frequently, technician jobs require use of complex electronic and mechanical instruments, experimental laboratory apparatus, drafting instruments, tools, and machinery. Almost all technicians must be able to use engineering handbooks and computing devices, such as the slide rule and calculating machines.

Technicians are utilized in virtually every activity where know-how is required. Their largest and best known areas of employment are research, development, and design work.

VOCATIONAL PROGRAMS

The following East Central Junior College Vocational Programs are designed to prepare the student to learn a trade. A certificate is issued upon satisfactory completion of one of the programs. Many job opportunities are available to those who complete one of the programs. These programs are scheduled to meet six hours a day, five days a week, unless otherwise specified in the course description. Classroom activities in each vocation and related fields as well as laboratory experiences are given each student. A vocational learning lab is provided to give additional training to students in each trade area. See page 79 for Cosmetology daily schedule, which includes seven hours a day, five days a week.

GENERAL INFORMATION

There is no special charge for laboratory, music, or commercial courses for fulltime students.

Fees are \$10.00 per month if from a Mississippi county outside this district that supports a junior college, \$90.00 per semester for students from other Mississippi counties, and \$200.00 per semester for out-of-state students.

Vocational students are classified as district students if they are from Mississippi counties and as out-of-state students if not from Mississippi counties for pay purposes, and they are the same as other students under these classifications.

If the deferred payment plan is used and these payments are not met then there will be an additional charge of \$5.00 added to the account.

All fees are payable in advance on the date due as indicated in the "Board Calendar."

All students who fail to clear their accounts with the college seven (7) school days prior to the starting date for examinations each semester will be dropped from school.

A written notice will be mailed to the student when this action is taken of the student.

For registration on dates other than those listed on the college calendar, then there will be an additional charge of \$5.00 added to the account.

All students who expect to register for fall semester as scheduled in bulletin must have completed admission requirements by August 20. Students who have not registered as scheduled in the bulletin will be assessed a late registration fee.

Part-time students will pay fees at the rate of \$24.00 per semester hour at the time they register not to exceed \$200.00.

Adults who are 65 years of age or older may attend East Central Junior College with matriculation fees waived.

East Central Junior College reserves the right to change any charges published if it should become necessary.

Cost for the 12 months Cosmetology Program is \$908.00 which includes books and cosmetology kit. A first time student has a first time charge of \$100.00 laboratory fee. Students applying for cosmetology must make an advanced partial tuition payment of \$50.00 in order to get on the admission list. (Non-refundable). Charges may be made the following way:
